

THE BRICK HUT @Home

***£14.99 per month**

BORROW, BUILD, RETURN

Well that was immense. What an amazing build, so many really beautiful parts to it - the forge was a particular highlight. What amazed me was that it still feels like Lego, even though it is so intricate. Loved some of the parts recycling - there's wheel arches, hot dogs, ice pops and life buoys in this build.

Thanks to The Brick Hut build at home subscription: Totally awesome
- C Hawes

My daughter and I love visiting The Brick Hut. There are times its not possible to physically visit the shop to build and play but the home scheme is amazing and great value for money. This means you can still get to build and play but in the comfort of your own home. A huge benefit is that you can take it back and swap for a different set when you have completed it and you dont need to have lots of built lego sets around the home taking up space. A fantastic scheme that I would 100% recommend to anyone child or adult.
- T Salvador

*"I have signed up to the Brick Hut at Home scheme and have just completed this beauty for £14.99 a month - a fantastic scheme that lets me build kits that are out of my price budget to buy but gives me hours of fun!
A fab place for all the family to visit, our daughter had her birthday party here and some of her friends have hopefully become new customers as they enjoyed it as much as we do - keep doing what you do - you are fab!!!"*
